

Centre for Training & Skills Development

The Centre for Training and Skills Development coordinates and provides training to individuals from partner countries to help build internal capability for securing vital infrastructure, mitigating threats, and responding to unauthorized or unlawful activity.

As an independent, global organization, IMPACT is uniquely positioned to provide the information and training required by IMPACT constituents to combat and prevent cyber threats, cyber crimes and cyber terrorism. Our catalogue of existing courses brings together worldwide experts in a broad range of specialisations, allowing IMPACT to work with governments and individual organizations to develop a training roadmap unique to their needs.

In addition, IMPACT will offer training links, webinars and other innovative training techniques suitable for remote consumption. Efforts to develop enhanced delivery methods to increase capability continue in partnership with the numerous IMPACT training partners. At IMPACT, we have carefully examined the needs and desires of our partner countries with an eye toward continual improvement. As future requirements are identified, IMPACT will strive to develop and deploy effective training courses to meet specific needs.

Training@IMPACT

IMPACT offers a full range of structured training courses that are available to partner countries and organizations. These courses are conducted by world-class instructors with proven expertise in their particular disciplines. IMPACT offers specialised professional courses in the following subject areas:

- Network Security
- Security Audit
- Security Management
- Policy and Legal Framework
- Digital Forensics

IMPACT's training courses can be held at our world-class training facility in Cyberjaya, close to Kuala Lumpur, Malaysia, or offered in conjunction with a host country in almost any corner of the world. For a full list of our course offerings, please refer to IMPACT's training catalogue which is available as a download from www.impact-alliance.org.

IMPACT Partner Scholarships

As a global, non-profit organization IMPACT has received generous donations from leading information security training providers. These donations enable IMPACT to offer highly sought-after training courses, either in person or online, to individuals from any one of our partner countries.

Through this program, IMPACT is able to offer various professional certification training courses with its partners - SANS Institute, EC-Council and ISC². Widely-acknowledged as the top information security certification bodies in the world, they are renowned for providing exceptional quality training that is recognized throughout the information security community.

Interested applicants from IMPACT partner countries can contact us at: training@impact-alliance.org.
