

BIOGRAPHY

Anuj Singh
Director of Global Response Centre
IMPACT

As the Director of the Global Response Centre (GRC), Anuj is responsible for the design, development and operational activities. He is also responsible for working with various global industry partners for offering comprehensive threat and remediation information to partner countries.

Anuj started his career as a Quality Assurance professional and then moved on to software development for a large solution provider. He managed several large software and IT infrastructure projects before moving on to become the product manager responsible for the core product development and services delivery for a managed security services provider.

Anuj has worked in the IT industry for about 18 years. He holds a Bachelors Degree in Commerce and Post Graduate qualifications in Systems Management.
